Summary

Results-driven Software Engineer with 2+ years of experience in building scalable applications. Proficient in React, Redux Toolkit, TypeScript with a strong focus on high-quality solutions. Skilled in collaborating with teams to drive project success. Designed an innovative solution for Fab-Funnel's architecture.

Experience

Ideaclan Private Limited, Panchkula

Mar 2024 – current

Software Development Engineer - 1

- Worked on multiple modules including Reporting, Campaign form, Rule creation with cron object.
- Collaborated with cross functional teams to deliver high quality application, with 95% on-time delivery rate.
- Built reusable custom hooks and TypeScript interfaces, enhancing code readability and maintainability.
- Optimized application performance by lazy-loading components and memoization, reducing load times by 20%.
- Contributed to code reviews and agile ceremonies, ensuring 95% on-time delivery with quality code.

Projects

FabFunnel

app.fabfunnel.com [🔗](#)

- Developed reusable React components, improving code reusability and reducing development time by 30%.
- Designed and implemented 3+ major modules, including integrations, rule engine, reporting system, and custom components, improving feature scalability by 25%.
- Created and maintained 5+ custom React hooks, simplifying state management and reducing code complexity by 30%.
- Worked with 3+ cross-functional teams, ensuring seamless feature integration and improving deployment efficiency.
- Tools Used: React.ts, Ant Design, React-hook-form, SCSS, GraphQL, ApolloClient, Codegen.

lookfinitly 2.0

app.lookfinitly.com [🔗](#)

- Created a reporting service to deliver detailed campaign performance insights, enabling data-driven decision-making and eliminating the need for third-party applications, reducing costs by 20%.
- Developed and integrated performance reporting, providing daily and hourly analytics for launched campaigns, improving data visibility and decision-making efficiency by 25%.
- Implemented Apollo Client subscriptions for real-time updates, enhancing campaign monitoring and responsiveness.
- Implemented interactive data visualizations using Chart.js, enhancing campaign performance insights.
- Tools Used: React.js, Ant Design, GraphQL, and ApolloClient.

Technical Skills

- **Programming languages:** JavaScript, TypeScript, JAVA(Basic), HTML, CSS.
- **Frameworks/Libraries:** React.js, Node.js(Intermediate), Express.
- **Packages:** Redux Toolkit, Codegen, React-hook-form, Ant Design.
- **Networking/Database:** GraphQL, REST, ApolloClient, SQL, MongoDB.

Education

Masai School, Bengaluru

July 2023 - March 2024

Full-stack web development

Guru Jambheshwar University, Hisar

Aug 2014 – May 2018

B.tech in Civil Engineering

Certification

- Certificate Of Appreciation - Ideaclan
- Certificate Of Top Performer - Ideaclan
